<p>09:00 – 10:30</p>	<p>IC2024ext,eye meeting</p> <p>Room: 8 CLOSED</p> <p>All morning. Only for the organization group of the IC2023ext,eye intercomparison exercise.</p>	<p>ISO/EURADOS Survey task meeting</p> <p>Room: 11 OPEN</p> <p>A EURADOS survey was launched in 2020 in collaboration with ISO. The results of the survey focused on the routine practices of IMSs would be useful as reliable inputs to help writing two new ISO standards. These two documents will aim at giving guidance on individual dosimetry for exposure to external radiations.</p>	<p>Dosimetry and IT task meeting</p> <p>Room: 12 OPEN</p> <p>The aim of this task is to identify data and Information technology (IT) problems facing by IMSs and develop recommendations to solve them. For IMSs there is a need to balance the various requirements for long-term retention, secure transmission and discarding of obsolete data. Because IMSs have different contexts (service size, nature of organisation, national requirements) the principles may need to be interpreted differently. Dosimetry and Information Technology is a broad topic, and the intention is that work will focus on various issues in turn.</p>
